

## Directions to our Stuttgart office

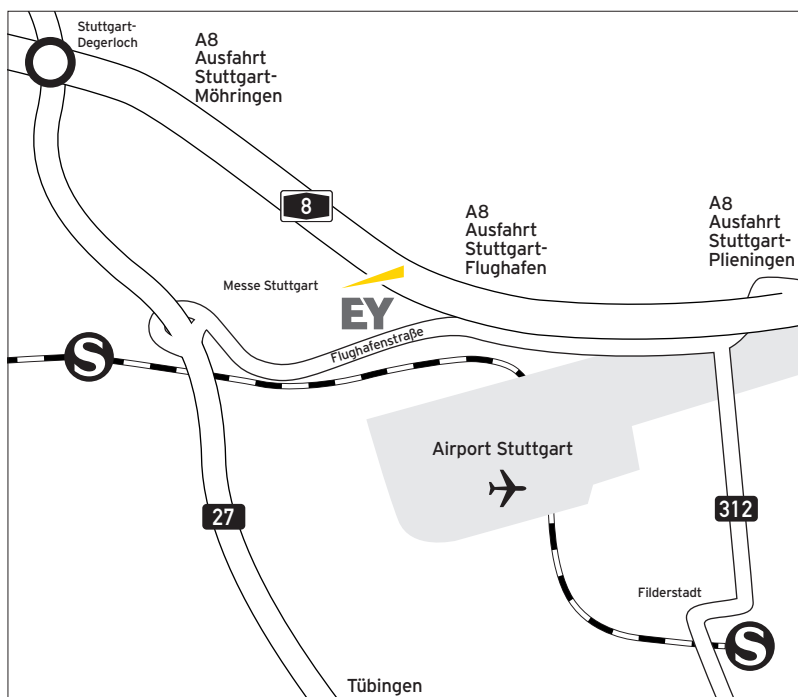

### Traveling by car

The EY office in Stuttgart is located at the airport. The federal highway A8 runs just north of the airport, and connects the cities of Karlsruhe, Pforzheim, Stuttgart, Ulm, Augsburg and Munich. In addition to this the state road B27 is also located in the immediate vicinity, and connects the airport with downtown Stuttgart, Tübingen and Reutlingen.

### Traveling by rail

From Stuttgart's central railway station, you should use either of the two local train lines (S-Bahn) that currently connect the airport to the city center: the S2 line Schorndorf-Stuttgart-Flughafen/Messe-Filderstadt, as well as the line S3 Backnang-Stuttgart-Flughafen/Messe. After leaving the airport building it is just a short walk to our office. It will then take you only a few minutes to reach our building.

### Traveling by bus

The bus routes 122 (Flughafen-Esslingen), 809 (Degerloch-Neuenhaus), 828 (Flughafen-Tübingen), and the express service X3 (Flughafen-Pfullingen), all provide connections to the airport.

Other than the express bus service, all means of transport are operated by the regional Stuttgart transport cooperative (VVS).

Please use the maps as a guide.

**We wish you a good journey and look forward to your visit!**
